

Partners and networks

The UPJV develops and maintains partnerships with more than 700 universities throughout the world. This network enables the UPJV to implement international mobility cooperation programmes (students, teachers/researchers, administrative staff) and scientific cooperation programmes (research teams, training departments). Several prestigious international networks

The University of Picardie Jules Verne is a member of several prestigious international networks promoting research, training and mobility partnerships throughout the world.

The UPJV is a member of Campus France. This French national agency is in charge of promoting French higher education abroad, managing grants from French and foreign governments, and hosting international students. It is placed under the joint supervision of the Ministry of Europe and Foreign Affairs and the Ministry of Higher Education, Research and Innovation.

Roles of Campus France:

hosting of foreign students and researchers, including assistance with visas and accommodation
management of scholarships, internships and other programmes for the international mobility of students and researchers
animation of "France Alumni", a network of international former students of French higher education

More info on: <https://www.campusfrance.org/en>

The Agence Universitaire de la Francophonie (AUF) is a global network of partially or entirely French-speaking higher education and research institutions. It brings together 1,007 universities, graduate schools (grandes écoles), university networks and scientific research centres using the French language in 119 countries.

Created nearly 60 years ago, it is the world's largest association of higher education and research institutions based on a common language. It promotes a French-speaking university community committed to the economic, social and cultural development of societies, while respecting the diversity of cultures and languages.

Since 1993, the UPJV has been a member of the International Student Exchange Programs (ISEP). This network includes nearly 300 universities in 50 countries, more than half of which are located throughout the United States. The ISEP network is a recognised world leader in the field of international student mobility.

The Erasmus+ programme was set up by the European Union to promote student mobility and cooperation in higher education. The programme currently covers the 27 EU Member States as well as Iceland, Liechtenstein, Norway, Turkey, the Former Yugoslav Republic of Macedonia and the United Kingdom. The UPJV currently has over 300 Erasmus+ partnerships with higher education institutions in Europe.
