

## International training programmes and modules

### International degree

Several UPJV courses include an international dimension to their teaching, with a compulsory period of study or internship in a partner university.

**Erasmus Mundus  
Joint Master Degree**

**Commission européenne**

The Erasmus Mundus MESC+ (Materials for Energy Conversion and Storage) international Master's degree is a 2-year scientific course of excellence, accredited by the European Erasmus+ programme.

The Master MESC+ involves:

- 5 universities from 4 European countries (France, Poland, Slovenia and Spain)
- 2 universities from the USA and Australia
- 1 European research institute (ALISTORE)
- the French network on energy storage (RS2E)
- the Slovenian National Institute of Chemistry (NIC)
- 1 leading research centre in Spain (CIC Energigune)

Established in 2004, the MESC+ Master's programme is led by members of world-renowned research laboratories in the field of energy-related materials, who already collaborate closely in several European and trans-European projects.

This prestigious Master's programme is taught entirely in English and is characterised by a high level of mobility. Each year, it welcomes around thirty French and international students. They are selected on the basis of criteria of excellence, enabling them to obtain a grant of up to €39,000. Applications take place every year from mid-October to the end of February.

**For more information and to apply**, please visit the MESC+ website: <https://mesc-plus.eu/>

**Commission européenne**

The UPJV is a partner in the European doctoral programme DESTINY, supported and co-funded by the Horizon 2020 Marie Skłodowska-Curie COFUND programme (grant agreement n° 945357).

DESTINY's objective is to train, over 5 years, 50 PhD students at the forefront of research on the batteries of the future. The ambition is to give European industry and academia a competitive edge in the rapidly emerging green technologies of electromobility and large-scale energy storage.

DESTINY is coordinated by the National Centre for Scientific Research (CNRS) in France and brings together:

- 20 universities
- 6 research centres
- 2 research networks
- 2 Regional Councils
- 3 major facilities
- 7 companies from 11 countries, mostly members of [Battery2030+](#) and stakeholders of the [European ALISTORE-ERI network](#)

**More details and applications on the DESTINY website:** <https://www.destiny-phd.eu/>

### Master in Performing Arts Double degree course

Agreement between the UPJV and the UNIRIO University (Brazil).

This double Master's degree in Performing Arts allows students to spend a semester or a year at the UNIRIO University in Rio de Janeiro (Brazil). Among the courses offered: courses on Brazilian theatre, Portuguese language courses with a teacher and, in the form of tutoring, with a Brazilian student.

At the end of the two-year Master's programme, the student receives two degrees: a French Master's degree and a Brazilian Master's degree.

The UPJV and the UNIRIO University are working with other French, European and Brazilian institutions to develop this course into a joint Erasmus Mundus Master's degree.

### Master in International and European Law Double degree course

Agreement between the UPJV and the University of Cardiff (Wales).

The UPJV Master's degree in International and European Law is jointly-accredited with the University of Cardiff (Wales). English language courses are taught in the first and second years.

Objective of the course: to train lawyers in international and European law, who will be able to pursue a legal career in a private (law firm, company) or public structure, including a University.

This Master's degree course leads to two diplomas: a Master of Law from the UPJV and a Master of Law (LLM) from Cardiff University.

## English taught course

**As part of the internationalisation of our university's training offer, many training modules are taught entirely in English.**

The objective is two-fold:

- diversify the range of courses offered to international students
- to promote the success of the mobility of French students by consolidating their English language skills
