

Admission as a free mover student

Registration at the UPJV is completed in two phases:

Phase 1: Admission or application

The timetable and procedures differ according to your profile (desired course, previous courses and/or nationality).

Phase 2: Administrative registration for initial training

If your application is accepted, you will be able to register administratively at our university according to the calendar which starts in July.

The registration procedure for international students outside of exchange programmes differs according to the country of origin.
