

Buddy System

To help you settle into your new living and studying environment, the UPJV offers you a buddy system with a French student: in tandem, discover the UPJV and your French host city!

Thanks to the Buddy System sponsorship scheme, your sponsor will help you to settle into your new environment:

- discovering the university and the city
- outings
- cultural visits
- practising the language...

Buddy System

The Buddy System is also an opportunity for the French students of the UPJV to improve their foreign language skills with native speakers, while sharing the culture of their country and vice versa.
